

CAT&CO[®] *Wellness*

Cooked in Italy

NO ARTIFICIAL PRESERVATIVE

Although if they are permitted by law, we chose not to add any additives in the production process, such as synthetic preservatives. The freshness and nutritional characteristics are preserved by advanced systems of production and by the use of raw materials that, thanks to their antioxidant characteristics, can preserve foods in a natural way.

CRUELTY FREE

We can be proud of being the first company in Sicily and one of the first ones in Italy in this sector, to have received the environmental certification (ISO 14001), which is synonymous of a special sensitivity to the environment and animals. In addition, to prove an increased attention to animal welfare, our company does not make nor commission useless animal testing.

NO OGM

Our animals deserve all the available quality and genuineness, so we guarantee the provenance of all the ingredients and we use only raw materials that do not contain genetically modified organisms and that meets our strict standards of quality.

With its forty-year experience in animal nutrition, all along **Adragna Pet Food** offers high quality products for dogs & cats. The company is able to assure its products high quality thanks to different factors. First of all, Adragna chooses prime raw materials shopped at local suppliers, (as warranty of genuineness and quality). All the materials are also checked by careful analysis. Secondly, the company uses highly advanced plant, result of lasts technological innovations in dogs and cats nutrition field. At the end, Adragna 's staff is and specialized and well motivated by real love for pets.

From 2001, the company has obtained the Quality Certification according to rules **UNI EN ISO 9001**, and it proof its continuous attention to improvement of production and marketing of own pet food.

To love own job and animals, also means to love and respect environment; for this, Adragna Pet Food, has also obtained Environment Certification according to rules **UNI EN ISO 14001**.

Adragna is, first of all, a familiar company and it is its strong point. It allows to establish direct and clear relationship with costumers and suppliers. The company is able to satisfy needs of its costumers with flexibility and promptitude. Adragna recovering motto: "**We are what we eat**", formulates high quality and checked products, adapt for dogs' and cats' different needs.

CAT&CO[®] Wellness

Cat & Co Wellness is the new line of functional foods inspired by the Mediterranean tradition and holistic philosophy, not tested on animals (Cruelty Free) and created by Adragna to meet the nutritional needs of cats, starting from all our passion and experience and on the basis of the best scientific knowledge.

The various products, made without the addition of artificial colorings or preservatives, are formulated using not genetically modified (GMO free) raw materials of high quality, which are carefully selected and highly digestive.

Cat & Co Wellness can satisfy the nutritional needs of cats and can promote the normal balance of the body through the use of physical, "functional" ingredients (nutraceuticals) that naturally contain beneficial substances with antioxidants and other substances with sedative, digestive and choleric properties.

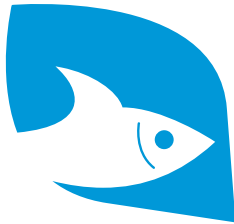

CHICKEN

Chicken is the white meat par excellence, it is synonymous of tenderness and digestibility and an excellent source of proteins and noble fatty acids, that contributes to the health of the gastrointestinal tract and to a good physique.

FISH

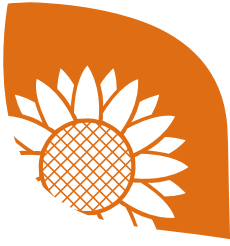

Because of its very high amino acids quantity and low presence of connective tissues, fish is a very digestible food and represents a great help to oppose food hypersensitivity events. Fats contained in the fish are mainly unsaturated, with high concentration of Omega 3, of which are well known and scientifically demonstrated the benefits for the organism.

LAMB

Lamb is one of the most digestible animal proteins and one of the most well tolerated by the organism. With its balanced contribution of essential amino acids, it represents an exceptional source of proteins with high biological value. Also its contents of potassium, iron and vitamins, especially niacin (Vit. B3) is very important.

SUNFLOWER OIL

It is mainly composed of unsaturated fatty acids, especially oleic and linoleic, the latter belonging to the group of Omega-6 of which are known the beneficial effects in the prevention of various diseases, especially affecting the cardiovascular system. The content of vitamin E is also important for its preservative and antioxidant action.

COD LIVER OIL

Cod liver oil is rich in Vitamin A and D, which are essential for healthy skin and mucous membranes, and for a healthy and robust skeletal development. It is mainly composed of essential fatty acids, including omega-3, precursors of two major compounds (EPA and DHA), useful in development of the tissues of animals.

FENNEL

It is a Mediterranean herbaceous plant, very rich in vitamins and mineral salts, known for its stimulating action on the motility of stomach and intestines (carminative) due to the presence of essential oils. To the same essential oils, can also be attributed the increase in antiemetic salivary secretion. It also has anti-inflammatory and antispasmodic properties.

CHAMOMILE

The chamomile, with its good anti-inflammatory and phlebotonic properties, is typically used for its anti-inflammatory and antispasmodic properties on smooth muscles of the digestive tract, in addition it is known to have healing, antibacterial and antifungal properties, helping to counteract inflammations of the gastro-intestinal tract.

ROSEMARY

It grows wild in the Mediterranean area and it is known to have beneficial properties on the organism. It is more and more used in animal feed, and not only, due to its stabilizing effect regarding to lipid peroxidation and its supportive effect in counteracting the presence of some intestinal parasites.

KITTEN

Chicken & Rice

FIRST ANIMAL PROTEIN

Composition: Dehydrated animal proteins (chicken 28%); rice(15%); animal fat; barley; wheat; maize gluten; potato protein; cod liver oil (1,2%); dried egg products; linsee; fructo-oligosaccharide (FOS); chicory pulp; brewers'yeast; pea flour; yucca schidigera; dried rosemary (Rosmarinus officinalis L.) (0,1%); dehydrated fennel (Foeniculum vulgare Mill) (0,1%); dried camomile flowers (Matricaria recutita L.) (0,04%).

Analytical Constituent: Wet 9,00%, crude protein 34,50%, crude oils and fat 19,00%, crude fibre 2,70%, crude ash 6,60%, calcium 0,95%, phosphorus 0,85%, magnesium 0,07%, omega-6 2,20%, omega-3 0,45%.

Additives (per kg):

Nutritional Additives: Vitamin A 31.000 IU - Vitamin D3 1.600 IU - Vitamin E (all-racemic alpha tocopheryl acetate) 370,00 mg - Vitamin B1 6,50 mg - Vitamin B2 20,00 mg - Niacin (Vitamina B3) 45,00 mg - Vitamin B6 10,00 mg - Vitamin H (Biotin) 0,28 mg - Vitamin K 1,00 mg - Vitamin B12 0,09 mg - Folic Acid 1,00 mg. - pantothenic acid 27,00 mg - Vitamin C 200,00 mg - Beta-carotene 27,00 mg - Coline chloride 1.500,00 mg - Taurine 2.200,00 mg - Metionine 1.000,00 mg- L-Carnitine 100,00 mg - Ferrous sulphate monohydrate (iron) 715,00 mg - cupric sulphate pentahydrate (copper) 44,00 mg - manganese sulphate monohydrate (manganese) 129,00 mg - Zinc sulphate monohydrate (zinc) 485,00 mg - Calcium iodate anhydrous (iodine) 1,00 mg - sodium selenite (Selenium) 0,93 mg.

Size: 0,400kg, 1,5kg

RECOMMENDED DOSES

Kitten Weight	0,5kg	1kg	1,6kg	2,3kg	3kg	4kg	5kg
Months	1-1,5	2-2,5	3-4	5-6	7-8	9-10	11-12
Ration in gr	15-25	35-60	45-70	55-75	60-80	65-85	65-90

FIRST ANIMAL PROTEIN

ADULT INDOOR Lamb & Potatoes

Size: 0,400kg, 1,5kg

Composition: Dehydrated animal proteins (lamb 22%); rice; barley; animal fat; potato protein; (9%); maize gluten; beet pulp; brewers yeast; linsee; pea flour; sunflower seed oil (1%); fructo-oligosaccharide (FOS); chicory pulp; fish oil; yucca schidigera; dried rosemary (Rosmarinus officinalis L.) (0,1%); dehydrated fennel (Foeniculum vulgare Mill) (0,1%); dried camomile flowers (Matricaria recutita L.) (0,04%).

Analytical Constituent: Wet 9,00%, crude protein 33,00%, crude oils and fat 16,00%, crude fibre 2,30%, crude ash 6,40%, calcium 0,90%, phosphorus 0,85%, magnesium 0,08%, omega-6 3,00%, omega-3 0,60%.

Additives (per kg):

Nutritional Additives: Vitamin A 31.000 IU - Vitamin D3 1.600 IU - Vitamin E (all-racemic alpha tocopheryl acetate) 370,00 mg - Vitamin B1 6,50 mg - Vitamin B2 20,00 mg - Niacin (Vitamina B3) 45,00 mg - Vitamin B6 10,00 mg - Vitamin H (Biotin) 0,28 mg - Vitamin K 1,00 mg - Vitamin B12 0,09 mg - Folic Acid 1,00 mg. - pantothenic acid 27,00 mg - Vitamin C 200,00 mg - Beta-carotene 30,00 mg - Coline chloride 2.500,00 mg - Taurine 2.500,00 mg - Metionine 1.000,00 mg- L-Carnitine 100,00 mg - Ferrous sulphate monohydrate (iron) 715,00 mg - cupric sulphate pentahydrate (copper) 44,00 mg - manganese sulphate monohydrate (manganese) 129,00 mg - Zinc sulphate monohydrate (zinc) 485,00 mg - Calcium iodate anhydrous (iodine) 1,00 mg - sodium selenite (Selenium) 0,93 mg.
